

How to Get an Analytics/OR Industry Job Interview and How to Launch Your Analytics Career?

WHAT?

Want to know what analytics and OR skills are being sought after in the industrial job market?

How about soft skills? Want to know how to network, get interviews, and ace these interviews?

Want to know how to launch your analytics career and enhance it?

Come attend this interactive workshop about launching your analytics and OR career, and get your questions answered.

SPEAKER

Dr. Aly Megahed, Research Staff Member
IBM's Almaden Research Center, San Jose, CA

Dr. Megahed's develops research methods in the areas of analytics, statistics, machine learning, and operations research to address different service science, cloud computing, Internet of Things (IoT), and blockchain technology problems. Dr. Megahed got his Ph.D. in Industrial Engineering from Georgia Tech. He has two master's degrees in Industrial and Production Engineering from Georgia Tech and Alexandria University, respectively, and a B.S. in Production Engineering from Alexandria University. He has done multiple analytical research/consultancy projects for over 6 companies in the past, has given both invited and submitted talks at several conferences, companies, and institutions/universities, and has his work published in several academic journals and conferences in addition to filing 25 patent disclosures. Dr. Megahed has also won several internal IBM awards and external ones, including being a finalist for the INFORMS Innovative Applications in Analytics Award. Being an active INFORMS member for the past few years, he participated as a panelist in industrial job search panels, served as an organizer for Ph.D. colloquia, judged best student paper awards, and mentored several students.
