

ASEE and HFES Presents

Redesigning the World Around Us

Kids Tech University

Saturday, February 18th, 2017
1:00-4:00 pm Goodwin Hall (Main Floor)

Volunteers needed!

Join us to explore four facets of human factors!

Exhibits:

Safety: Play a where's Waldo-type game to identify multiple hazards and dangers in the working environment!

Technology: Watch a LEAP motion capture demo which participants can interact with!

'Heuristics': Undergo methods of calculating Fitt's Law in pointing and interacting!

Cognition: Use a HoloLens to engage in multitasking gaming and experience multiple resource theory while playing an interactive demo!

All ISE faculty, staff, and students are encouraged to attend or volunteer to help make this a success!
