Protocols in this study have been approved by the Virginia Tech Institutional Review Board (IRB #17-447)

PARTICIPANTS NEEDED

Activity Tracking Using "Smart" Textiles

Participants are needed for a Virginia Tech research study investigating the ability of advanced textile systems ("smart socks/shirt") to monitor different physical activities.

Requirements:

- Age: 18 -35 years old
- Must have no current or recent (past 1 year) musculoskeletal injuries or other health conditions.
- Exercise on a regular basis (2-3 times per week)

Experimental details:

This study involves 2-3 experimental sessions that are completed on separate days. You will be asked to wear a pair of "smart socks" that fit your feet and a "smart shirt", and then complete several tasks (e.g., lifting a box ~ 12 lbs., walking, running). Completing the sessions will require a total of ~4-5 hours, and you will be compensated $10 per hour of your participation.
