BACKGROUND

About Running Fox Solar

Startup solar utility company aiming to provide **electric vehicle chargestations**

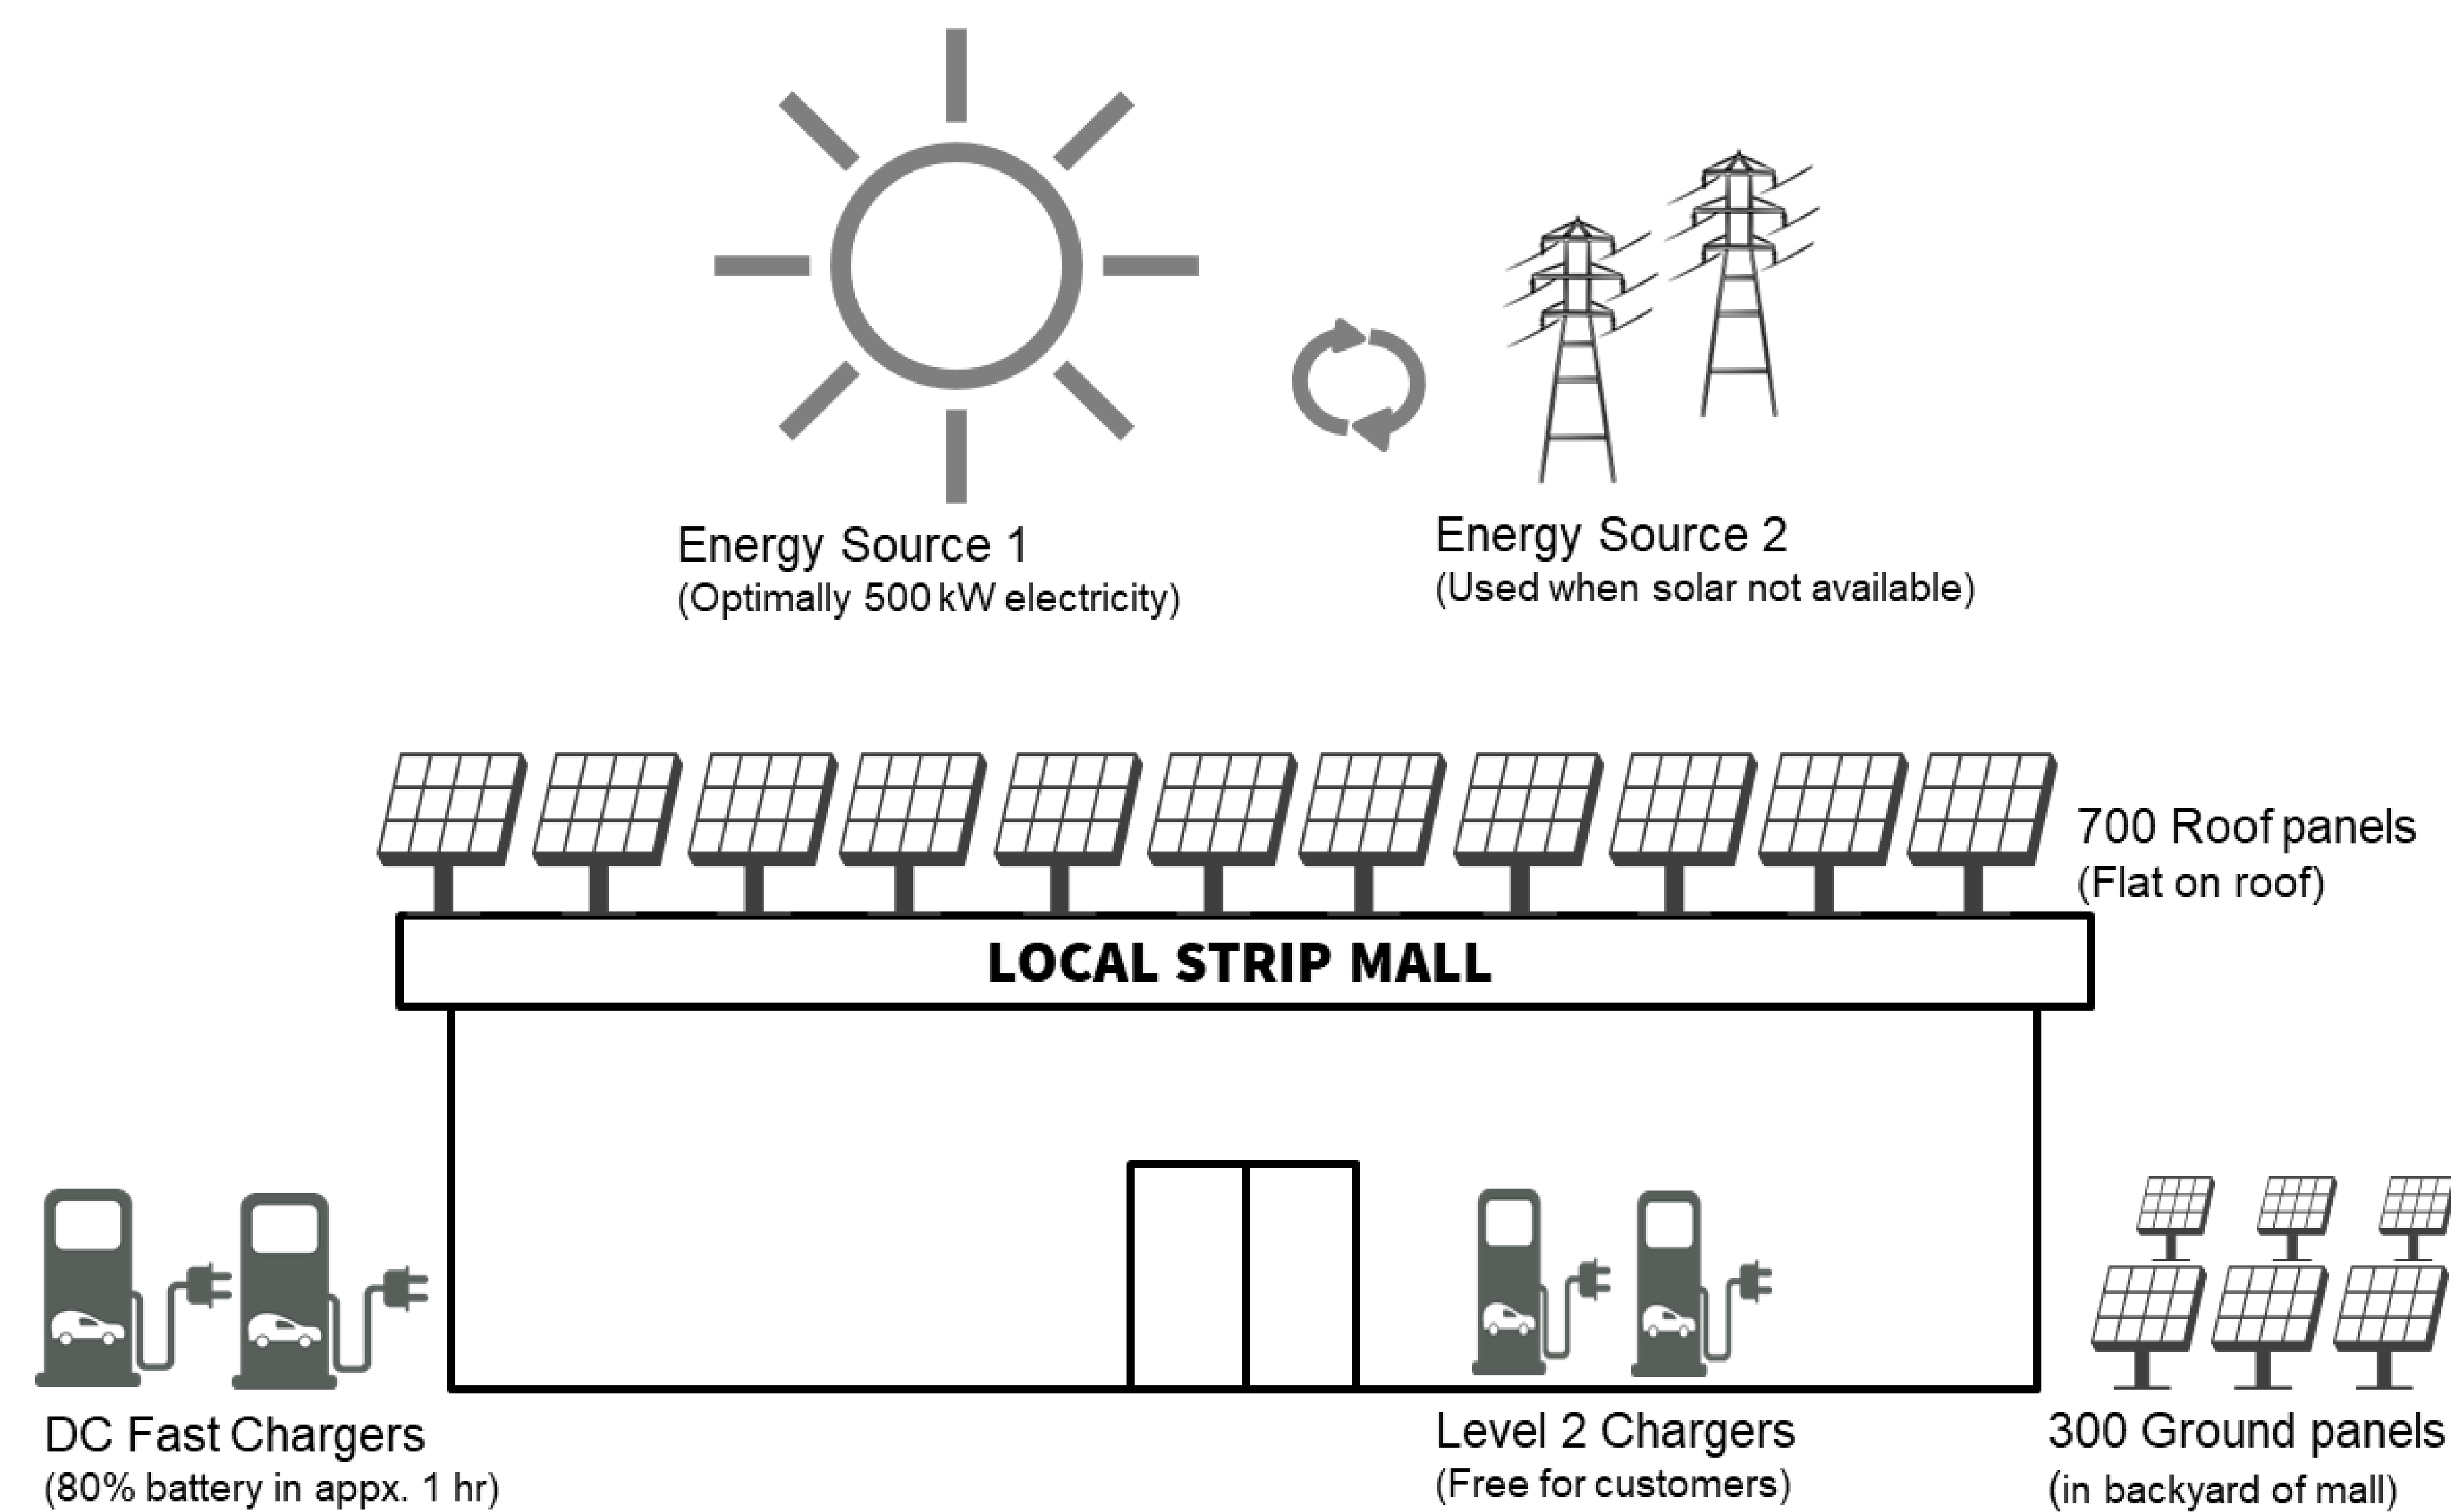

Central location all traffic has to pass traveling to **Chincoteague Island, DelMarVa Peninsula**

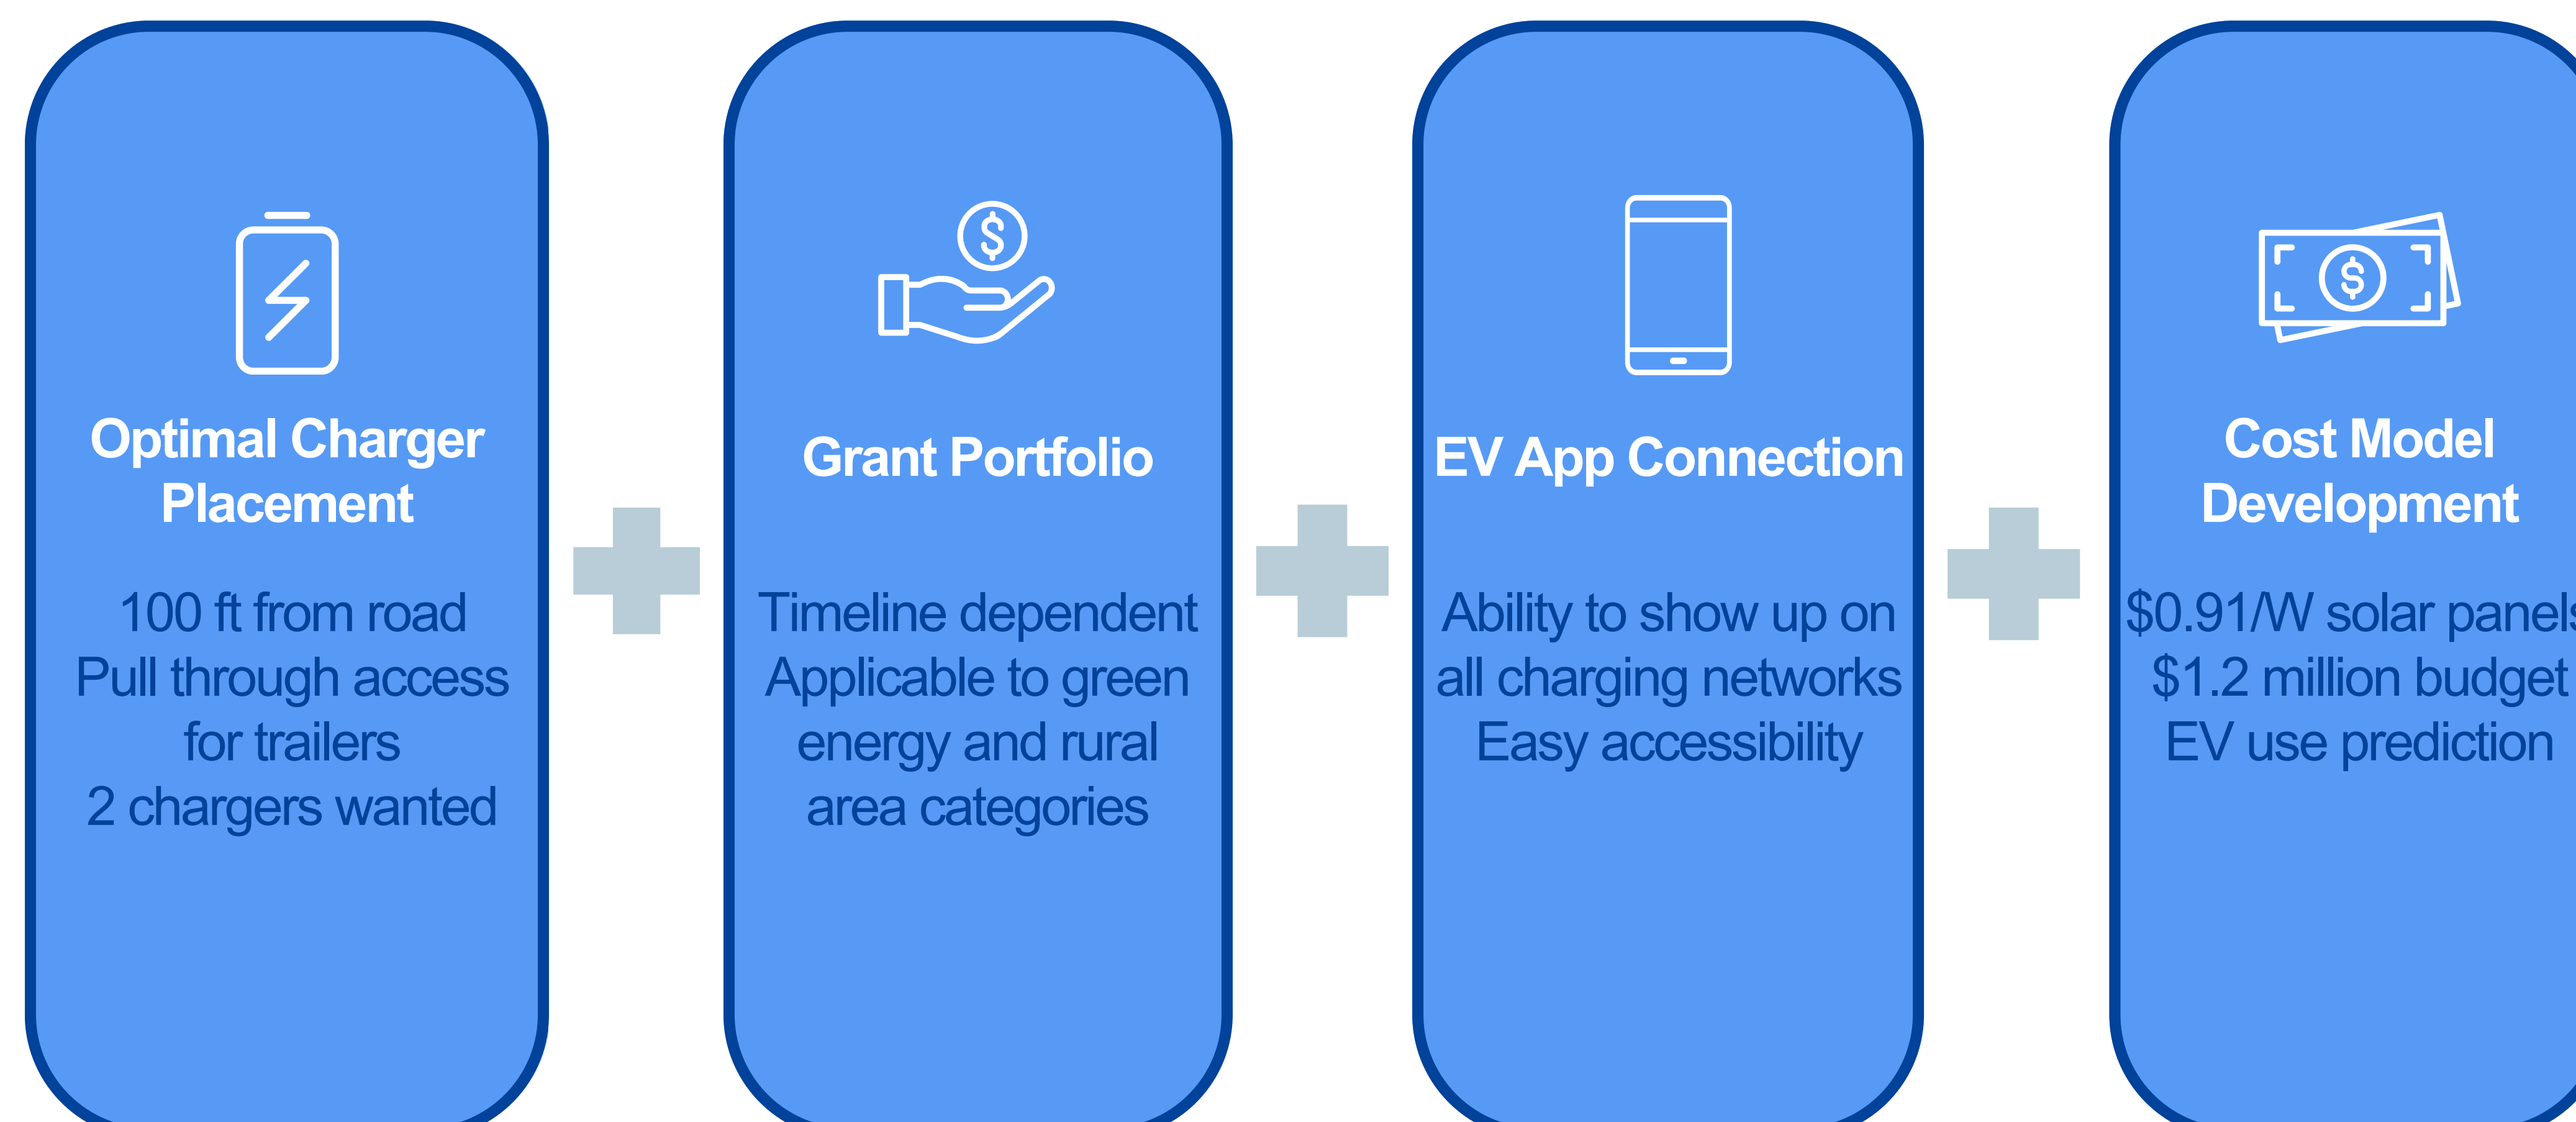

Opportunity

- Consult on the **formation of a green energy start-up**
- Strict budget and time deadline**
- Reduce range anxiety** - no level 2 chargers within 12 sq mile radius
- Implement **EV charging station**
- Encourage commercial and agricultural **solar development**

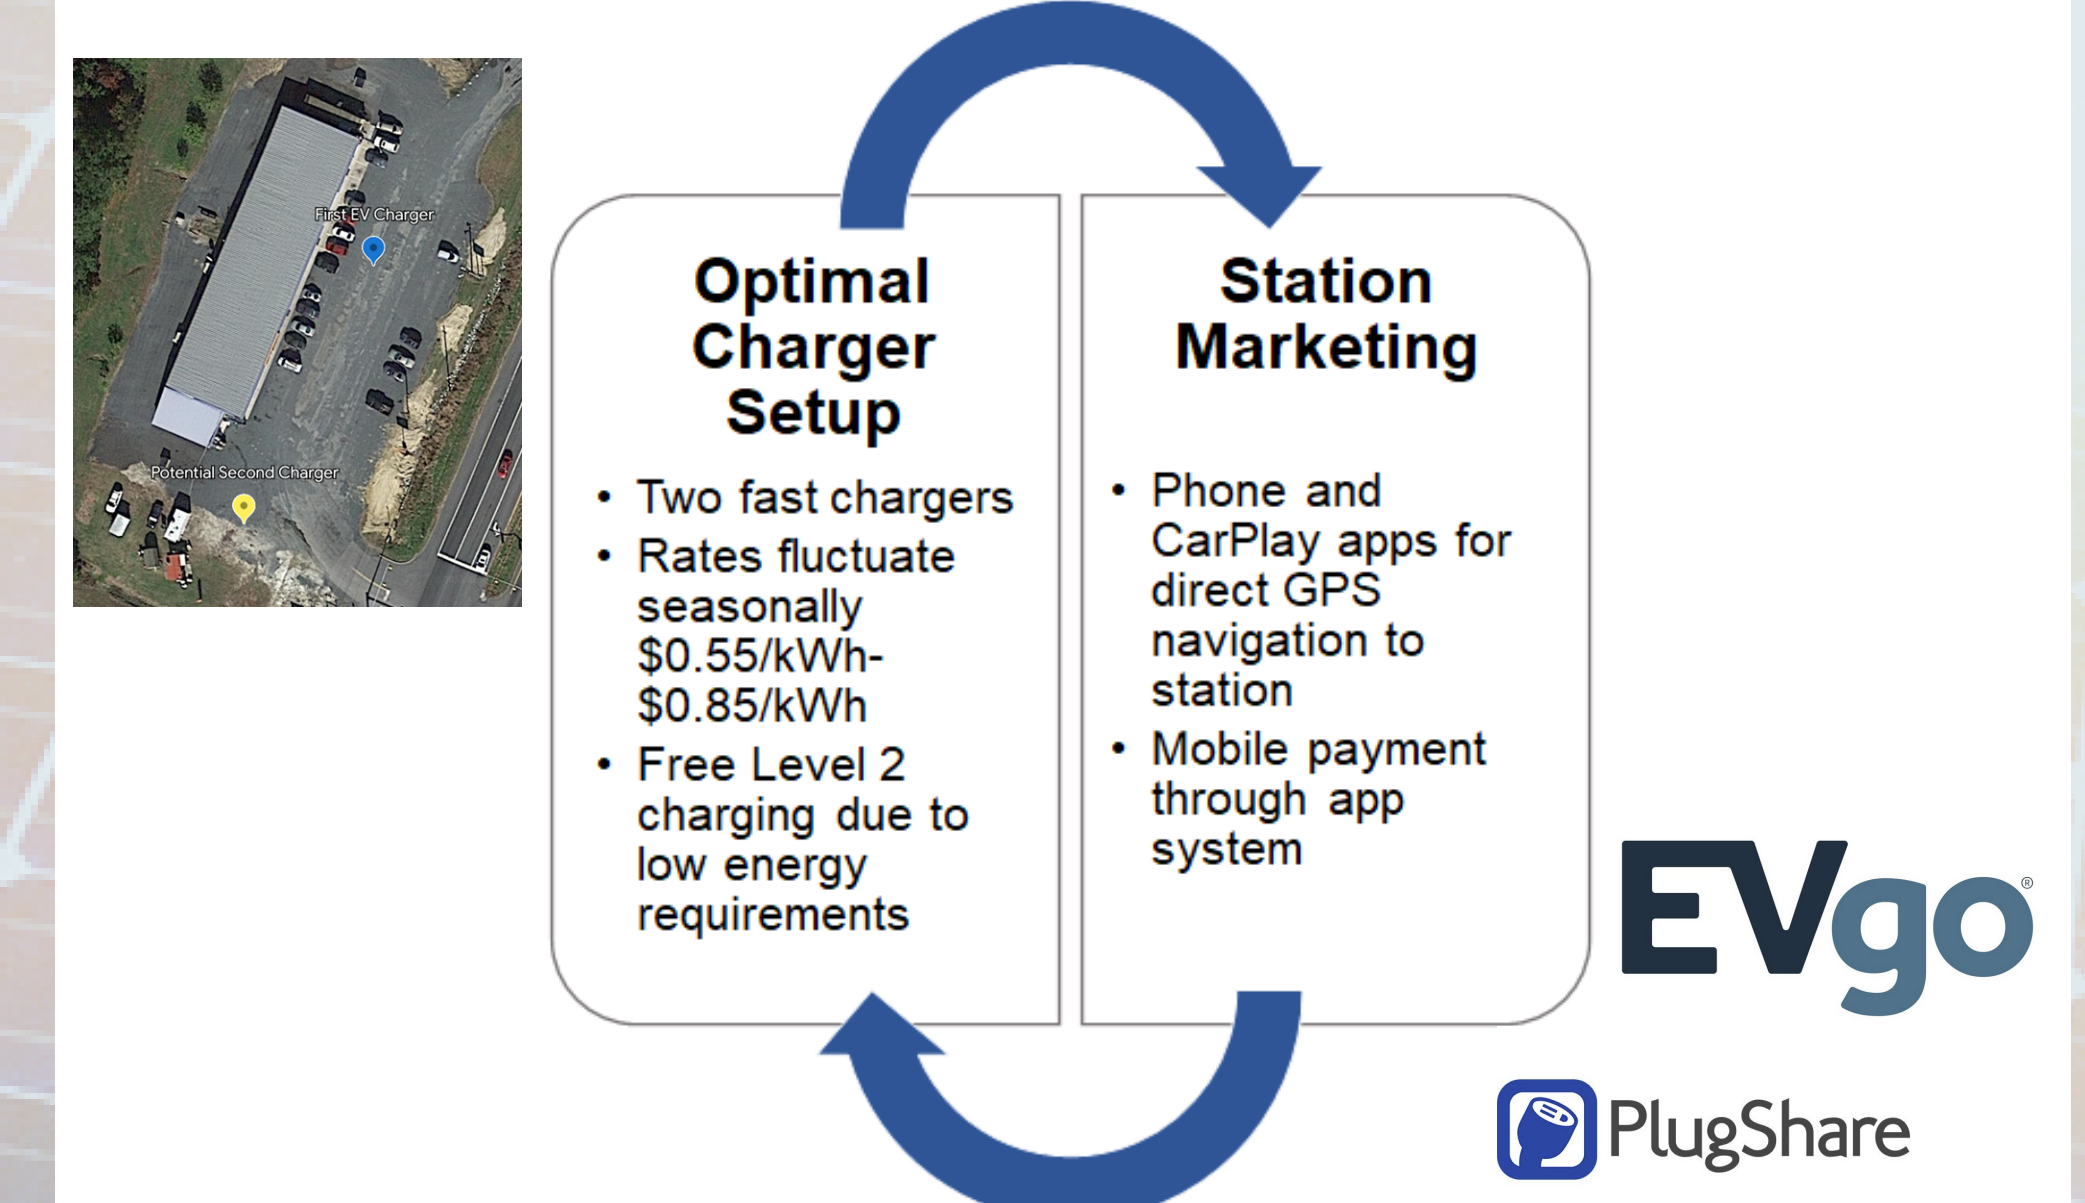

RESULTS

PROJECT APPROACH

IMPACTS

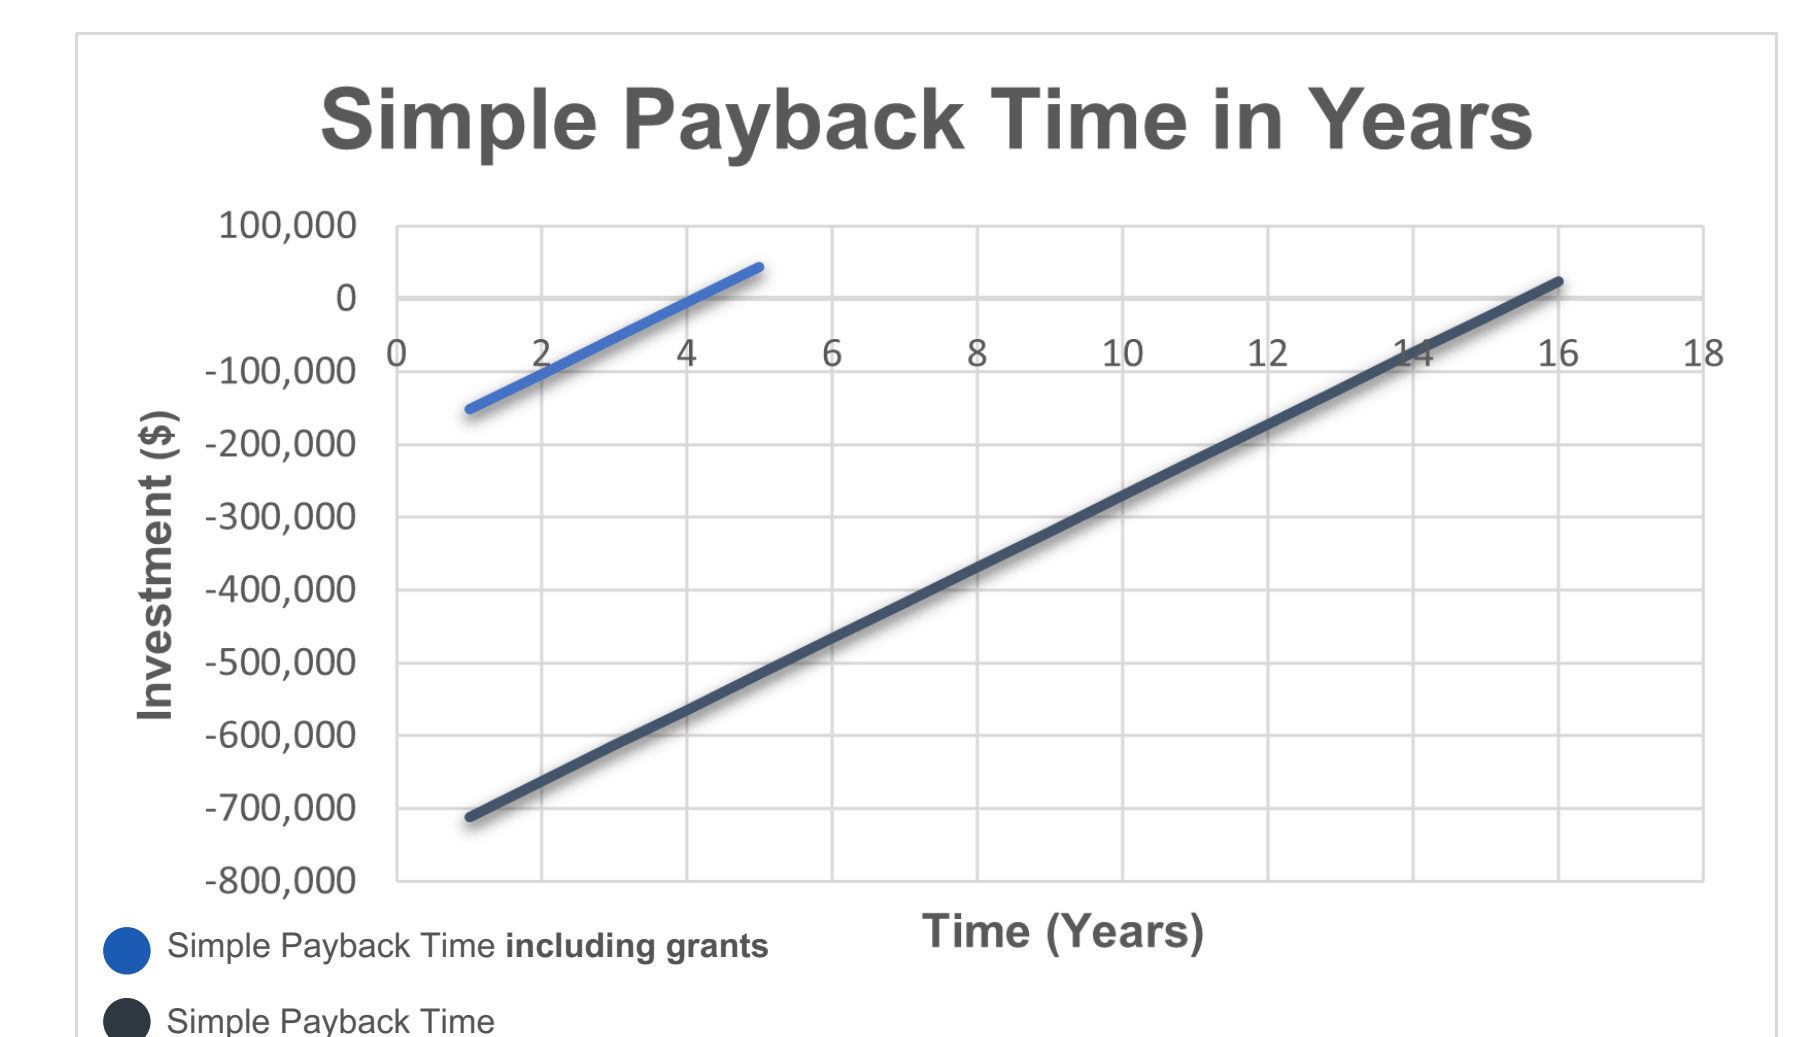

DELIVERABLES

\$11,000 Total Monthly Income

from 3 EV average charging customers per day charged at a \$0.60/kWh rate and a \$7,000 utility payment from mall tenant

\$840,000

30% tax incentive + maximum grant money

165,000 lbs

CO2 emissions eliminated annually from solar production (based on average VA electricity mix)
